

## **Job: Fauna Specialist (Contract/Full-time)**

### **Job Duties and Responsibilities**

Camphora is a collective that provides integrated flora, fauna, and arboriculture baseline data to inform design intent and formulate solutions for ecological conservation.

We are seeking to hire an enthusiastic and self-motivated individual who has a passion for biodiversity and enjoys working in the outdoors, including forested environments.

You will mainly be assisting in the following (but not limited to):

- Planning and execution of terrestrial fauna surveys, including day and night surveys
- Integrate faunal findings into biodiversity impact assessment
- Conduct inspections at development sites
- Manage project deliverables
- Report writing
- Attend and prepare for meetings

### **Job Requirements**

1. Diploma or Degree in Environmental Science, Zoology, Biology, or related fields
2. Passionate about biodiversity conservation
3. Responsible, independent, and possess strong interpersonal skills
4. Physically fit, and comfortable being outdoors and in the forest
5. Able to work in a fast-paced environment and meet project deadlines
6. Training will be provided but familiarity with species identification of a particular faunal group (terrestrial/freshwater/marine) will be an advantage. Fresh graduates are welcomed to apply.
7. Knowledge in GIS or data analytics will be an advantage.

Appointment may be full-time or on a 1-year contract basis. Salary will be commensurate with qualification and experience.

To apply, please send a cover letter and CV to Derek Yap at [derek@camphora.com.sg](mailto:derek@camphora.com.sg).
